ABOUT QUEEN CITY RAILROAD CONSTRUCTION

KEEPING AMERICA ON TRACK SINCE 1928

Queen City Railroad Construction, Inc. is a safety-focused railroad contractor and project management company that specializes in the design, construction and management of rail projects of all sizes. Queen City has been serving the rail industry since 1928 and remains focused on servicing both the private and public sectors. Queen City employs an experienced staff of engineers, field personnel and project managers to ensure that rail projects are managed safely and efficiently.

CORE SERVICES

Queen City excels at providing railroad construction management, new track construction and track rehabilitation services. Our approach is built upon decades of experience managing hundreds of rail projects throughout the nation. We bring the industry experience, accountability and level of expertise needed to meet our client's project objectives – which ensures that projects are delivered in accordance to the client's specifications, are on schedule, with the highest emphasis on safety and quality.
